Ibiam Joshua
Fullstack Developer

I am a highly skilled and motivated software developer with my expertise in designing, developing, and deploying robust and scalable server-side applications. I excel in creating efficient APIs, proficiently managing databases. My strong knowledge of JavaScript, HTML, CSS, RESTful APIs, JSON enables me to build reliable and secure web applications. Additionally, I have hands-on experience with various tools and frameworks, including React, Bootstrap, Git, which have contributed to successful project deliveries and client satisfaction

Ibiam Joshua

Education

2021 - 2023
B.Sc. Accounting
University of Lagos

Expertise

- HTML5
- CSS3
- Bootstrap
- Vanilla Javascript
- React.js
- Next.js
- Typescript
- Node.js
- Express.js
- Postgresql
- Git/Github

Experience

2022 - 2023
Xplug Technologies | No. 70, Itire Str. Lawanson Road, Ojuelegba
Software Developer Intern

- Developed client applications using React, Redux, and Vanilla.js, showcasing proficiency in front-end technologies.
- Contributed significantly to the training and professional development of fellow interns, fostering a collaborative learning environment.
- Led the creation of scalable full-stack applications, utilizing React for the front end and employing Node.js, Express, and PostgreSQL for the back end.
- Demonstrated expertise in user interface design and robust server-side architecture, highlighting a comprehensive skill set in web development.

JANUARY 2023 - MARCH 2023
Zuri HNG | Remote
Frontend Developer Intern

- Effectively managed and assigned tasks on a daily basis, ensuring efficient progress and timely completion of projects.
- Demonstrated consistent commitment by crafting client interfaces every week, contributing to a steady cadence of development and iterative improvement.
- Acquired essential proficiency in HTML, CSS, and JavaScript, forming a solid foundation for understanding and contributing to web development projects.
- Collaborated within a dynamic team environment, sharing insights and collaborating to achieve project objectives while fostering a collaborative atmosphere.

Certificate: Zuri Certificate

Projects

Portfolio - Designed and developed a personal website that showcases my skills, projects, and contact details as a software developer using React and Framer Motion in React. Made the website responsive and attractive using modern web design principles. Optimized the website for SEO and performance. Github Link

School Management Application - As a web developer, I successfully created a school management application for a university that allows authorized users to manage various aspects of the academic system. I demonstrated my proficiency in front-end development by using vanilla JavaScript to create a user-friendly interface, and my back-end development skills by using Node.js and Express.js to build a robust server that handles requests and responses. I also utilized PostgreSQL as a relational database to store and retrieve data, and implemented RESTful APIs to facilitate the communication between the front-end and the back-end. This project showcases my ability to design and develop full-stack web applications that meet the needs of the clients and the users. Github Link
